Research Interests

My research focuses primarily on the design, development, and maintenance of software. I am focused on Data Mining/Machine Learning techniques, decision-support methodologies, and their applications. As a part of my research, I am working with a rule-based decision-making methodology known as DEX. Studying and developing data-based decision-making models. I am currently developing a web-based multi-attribute decision modeling based on DEX methodology.

Education

- October, 2017 – **M.Sc. in Information and Communication Technologies**, *Jozef Stefan International Postgraduate School*, Ljubljana, Slovenia, GPA – 10.0
October 2020
October, 2013 – **B.Sc in Computer Science - Software Design**, *University of Prizren - Faculty of Computer Science*, Prizren, Kosovo, GPA – 9.78
October, 2016

Work Experience

- March, 2020 – **Jozef Stefan International Postgraduate School**, *Ljubljana, Slovenia*, Project Member
Current *Development of an expert system to support decision-making in the monitoring and development of competencies*
Responsible for designing and developing REST API and web-based software for the establishment of competencies for individual job positions in the organizations and evaluation of the competencies. Also, participating in the development of the decision-making model that has been incorporated in the web-based software in the final release of the stable version.
- February, 2019 – **Jozef Stefan International Postgraduate School**, *Ljubljana, Slovenia*, Project Member
July 2019 *Development of an Expert Decision Support System in the selection of trainings*
Designing and developing web-based software for the evaluation of employees and training suggestions to improve the competence quality of a company by using decision-making methodologies.
- October, 2017 – **Department of Knowledge Technologies**, *Ljubljana, Slovenia*, Research group member
Current *EU H2020 project NARSIS (New approach to reactor safety improvements)*
Development of a Decision Support Tool for Severe Accident Management (Severa), designing and performing test and validation runs of Severa and contributing to writing the NARSIS Deliverable and other Severa Documentation.
- August, 2016 – **AIO Technology**, *Pristina, Kosovo*, Software Developer
July 2017 Responsible for planning and developing web-based software on various platforms depending on the request, such as Java-based, .NET, and PHP.
Developing UI-based web-scraping tools for populating various relational databases.
Designing and developing web-based software for merchandising (3D graphic).
- July, 2015 – **Probit**, *Pristina, Kosovo*, Software Developer
October 2016 Responsible for the development, testing, and implementation of web-based and android applications.

July, 2013 – **APrint**, Prizren, Kosovo, Graphic Designer
February 2014 Brand designer, responsible for brand identification and brand naming for small various business.

Professional Skills

- Java, Spring, SQL, MySQL, PostgreSQL, C#, C/C++, Pascal, Matlab, JavaScript, Python, R, Oxygene, PHP, Laravel.
- Strong knowledge with OpenCV and its application. Developed Chess Robot using OpenCV in Matlab. The platform has been GPU programmed for higher performance. Developing other projects using OpenCV such as, mobile robots finding the shortest path using a single camera.
- Microservices development.
- API development.
- Machine Learning (ML) & Decision Support (DS).
- C1 level of spoken and written English.
- Excellent communication skills gained through my work and studying experience abroad. Very good presentation skills. Speaking in public, to groups, or via electronic media.
- Strong collaboration skills (+5 years of teamwork).
- Good skills at problem-solving and quick improvisations.
- Creative thinking and great graphical skills.
- Basic knowledge in Slovene (gained while living in Slovenia) and German language (gained online in my free time).

Publications

- Bohanec, M., **Kikaj, A.**, Vrbanić, I., Bašič, I., Debelak, K., Štrubelj, L.: Supporting severe accident management in nuclear power plants. ICDSST 2020, 6th International Conference on Decision Support System Technology on Cognitive Decision Support Systems and Technologies, Zaragoza, Spain, 229, 2020.

Awards

2017 – 2020 **Ad Futura scholarship for master studies**

Public Scholarship, Development, Disability and Maintenance Fund of the Republic of Slovenia

Activities

President of Student Association & Editor 12th Jožef Stefan International Postgraduate School Students' Conference and 14th CMBE day

Organizer & Editor 11th Jožef Stefan International Postgraduate School Students' Conference and 13th CMBE day

Organizer & Reviewer The 19th Open Conference of the IFIP WG 8.3 on Decision Support Systems (IFIP DSS 2018)
